rest: MuraCina,

this text i don't need a cleaner so, the news i don't want already
cleaned beautifully™

i hope you enjoyed the release
after this i will get to translating the rest out this

however the scene, overuse drop, the do so it is an error that
period. it get back to that when the text =)

thanks to all who offered me help it is needed, it next time round
for other people!

Editor's note:

Hi guys, first of all, this is my first time ever editing manga (I didn't translate it)

I really hope you liked it! A.A

This chapter was lost and some translators were refusing to upload the following chapters until somebody founded this one, translated it, edited

and finally uploaded it, so I decided to find the missing pages of the chapter and, with the translations of somebody else (I can't read japanese xD) clean the pages and upload it!

It took a looong while (the rows were terrible) ͎͎͎

and I'm sorry for the bad quality of pages 21-27, T_T ,but that was the best I could find.

Another note! yeah! in page 22 Kazuma says something completely non-sense with a mouse on the story... xDD
